VISION

In 2024, meme coins are more popular than ever. At Husky Inu, we aim to leverage this trend to create accessible DeFi platforms for everyone, everywhere.

Our decentralized exchange (DEX) will ensure safe, smooth trading with the lowest possible fees. We're also launching a DApp where users can earn Husky Inu tokens by completing simple tasks. Additionally, 50% of the revenue profit from the app and exchange will be used for buybacks and burning, reducing the token supply.

PRESALE

Before launching \$HINU on the Solana network, we are giving our early supporters the chance to secure their spot and participate in the presale.

TOKENOMICS

Our tokenomics ensure fair distribution, strong liquidity, and sustainable growth. A portion of funds will support marketing efforts, and a burn mechanism will reduce supply, enhancing value for all \$HINU holders.
